INDIANA BOARD ON GEOGRAPHIC NAMES
Joseph I. Perrey, Chairman

Members as of June 30, 1963

Division of Water Resources Indiana Department of Conservation	Denzil Doggett
Geological Survey Indiana Department of Conservation	Henry H. Gray
Indiana Flood Control and Water Resources Commission	Joseph I. Perrey
Indiana Historical Society	Caroline Dunn
Indiana State Highway Commission	M. O. Wise
School of Agriculture Purdue University	H. P. Ulrich
School of Civil Engineering Purdue University	Robert D. Miles

Staff assistance by
Indiana Flood Control and Water Resources Commission

Communications should be addressed to
Indiana Board on Geographic Names

PREFACE

Names of places, like names of persons, are given primarily for convenience and accuracy in reference and identification. As the works of man spread more widely over the land, the need for greater standardization and wider common understanding of place names becomes more important. The Indiana Board on Geographic Names, an informal organization established by joint action of the several cooperating organizations represented on the board, serves as an advisory body to State and Federal agencies and others who desire guidance in decisions involving controversial geographic names. The Indiana board cooperates with, and commonly follows the precepts of, the longer established U.S. Board on Geographic Names.

State organizations that make extensive use of maps have for some time been aware of numerous problems involving geographic names. Most directly concerned, perhaps, is the Indiana Flood Control and Water Resources Commission, which, by the nature of its broadly defined duties, works with even the smallest streams and watersheds in every corner of the State. Small geographic features generally have no accepted name; at best they are uncertainly or casually named. Because of this interest in geographic names, the Indiana Flood Control and Water Resources Commission has for some time served, informally, as geographic names consultant to the United States Geological Survey in the latter's program of topographic mapping in Indiana.

On February 20, 1961, Joseph I. Perrey, Chief Engineer, Indiana Flood Control and Water Resources Commission, sent a letter to several other organizations known to be interested in mapping and geographic names, inviting them to appoint a representative to help organize a board to deal with geographic names in Indiana. The organizational meeting was held in Indianapolis on April 7, 1961. Representatives of the several cooperating organizations were Denzil Doggett, Division of Water Resources, Indiana Department of Conservation; Caroline Dunn, Indiana Historical Society; Henry H. Gray, Geological Survey, Indiana Department of Conservation; Robert D. Miles, School of Civil Engineering, Purdue University; Joseph I. Perrey, Indiana Flood Control and Water Resources Commission; H. P. Ulrich, School of Agriculture, Purdue University; M. O. Wise, Indiana State Highway Commission. Joseph I. Perrey was elected chairman. The name, Indiana Board on Geographic Names, was chosen, and a guide for operation of the board was adopted on May 19, 1961. At regular meetings held, generally monthly, from this date through June 30, 1963, the board has acted upon 237 cases.

In this pamphlet and others to be issued periodically the decisions of the board, called "findings," are collected and issued for public information. These findings are reached after investigation of historical references and current usage, both written and spoken. This information is tempered with good cartographic practice, and an attempt is made to avoid unnecessary duplication and confusion. It is hoped that the findings of the board will be accepted as authoritative and will be helpful in settling local controversies regarding geographic names.

Anyone who wishes may apply to the board, directly or through any of the cooperating organizations, requesting a finding for establishing new geographic names or for determining proper usage of existing names in Indiana. As much pertinent information as possible, both current and historic, should be furnished with the request. The address of the board is: Indiana Board on Geographic Names, Room 606, State Office Building, Indianapolis 4, Indiana.

INTRODUCTION

The following register of Indiana place names contains 111 entries which were investigated and approved as findings by the Indiana Board on Geographic Names during the period July 1, 1962, through June 30, 1963. These names were submitted for investigation by various individuals, private organizations, and local, State, and Federal agencies. The approved names include names newly applied to previously unnamed features, new names replacing existing but unsatisfactory names, and names selected from among several conflicting names.

The approved names, which are underscored herein, define the proper form, spelling, and application of the names of the subject features. The findings in the principal body of this publication reflect the influence of historical background, cartographic usage and trends, local preference as far as can be ascertained, and legal decisions where applicable.

Each geographic feature is described as to actual or relative size or extent, by reference to civil subdivisions, and by congressional land survey boundaries. Geographic coordinates in latitude and longitude are given at the limits of linear features, such as streams, ditches, ridges, and roads; at the center of cemeteries, lakes, islands, and populated regions; and at points of geographic importance, such as the crest of a hill or the depression of a valley.

The Indiana Board on Geographic Names recommends use of the approved names listed in this publication. The board does not recommend the use of the variant names, spellings, or applications, which are recorded following the detailed description of the feature and the word "Not."

An index, which includes the approved names and the known variant names, forms the concluding section of this issue. The combined listing is presented in alphabetical order. Certain names that are derived from compound personal names are cross indexed under the second part of the name. Names which are not approved are followed by the word "See" or "See also," and reference is given to the approved name. Each approved name is followed by its finding number in parentheses. These numbers, assigned in the order in which the findings are adopted by the board, are useful in reference, particularly in the case of duplicate names.

Interested persons should also refer to the lists of decisions published periodically by the U. S. Board on Geographic Names.

FINDINGS
July 1, 1962 - June 30, 1963

Armstrong Ditch (198): A stream about 0.25 mile long in Jasper County, Indiana, heading in sec. 11, T. 31 N., R. 5 W., second principal meridian, at lat. 41°08'36" N. and long. 86°57'22" W., and flowing generally eastward to its confluence at Ryan Ditch in sec. 14, T. 31 N., R. 5 W., second principal meridian, at lat. 41°08'34" N. and long. 86°57'05" W., in the Jasper-Pulaski State Game Preserve. April 19, 1963.

Barton Lake (157): A lake having a surface area of approximately 94 acres in Jamestown Township, Steuben County, Indiana, in sec. 17, T. 38 N., R. 13 E., second principal meridian, at lat. 41°45'07" N. and long. 85°03'38" W., and about 2.0 miles northeast of the community of Nevada Mills, Indiana. Not: Hog Lake. November 28, 1962.

Bass Lake (158): A natural lake of approximately 1,405 acres surface area in California and North Bend Townships, Starke County, Indiana, in secs. 7 and 18, T. 32 N., R. 1 W., and secs. 12, 13, 14, 23, and 24, T. 32 N., R. 2 W., second principal meridian, at lat. 41°13'30" N. and long. 86°35'30" W. Not: Cedar Lake. January 18, 1963.

Bass Station (159): A community in California Township, Starke County, Indiana, in secs. 26, 35, and 36, T. 32 N., R. 2 W., second principal meridian, at lat. 41°11'06" N. and long. 86°36'08" W., and about 1.6 miles south of the community of Bass Lake, Indiana. Not: Bass, Bass Lake, Bass Lake Station. January 18, 1963.

Beaver Creek (181): A stream about 29.5 miles long, heading in Newton County, Indiana, in sec. 24, T. 30 N., R. 9 W., second principal meridian, at lat. 41°01'47" N. and long. 87°23'47" W., and flowing generally westward to its confluence at the Iroquois River in Iroquois County, Illinois, at lat. 40°58'13" N. and long. 87°48'51" W. Not: Beaver Creek Ditch, Wooten Ditch, Goff Ditch. February 13, 1963.

Becks Grove (160): A small community in Van Buren Township, Brown County, Indiana, in secs. 31 and 32, T. 8 N., R. 4 E., second principal meridian, at lat. 39°04'49" N. and long. 86°06'58" W. Not: Beck's Grove, Beck. January 18, 1963.

Big Creek (185): A stream about 15.5 miles long, heading in Warrick County, Indiana, in sec. 25, T. 3 S., R. 8 W., second principal meridian, at lat. 38°13'10" N. and long. 87°15'25" W., and flowing circuitously westward to its confluence at Pigeon Creek at the Gibson-Warrick county line, at the south line of sec. 32, T. 3 S., R. 9 W., second principal meridian, at lat. 38°12'05" N. and long. 87°25'47" W. Not: Big Creek Ditch, McSwain Ditch. February 13, 1963.

Big Monon Creek (161): A continuous stream about 5.9 miles long, flowing in two directions during periods of low water, from an artificial saddle in White County, Indiana, in sec. 1, T. 28 N., R. 4 W., second principal meridian, at lat. 40°54'06" N. and long. 86°49'36" W.; flowing generally north-northeastward for about 1.5 miles to its confluence at Big Monon Ditch in Pulaski County, Indiana, in sec. 36, T. 29 N., R. 4 W., second principal meridian, at lat. 40°55'11" N. and long. 86°48'59" W., and also flowing generally south-southwestward and south-southeastward for about 4.4 miles to its confluence at the backwater of Lake Shafer on the Tippecanoe River in White County, Indiana, in sec. 30, T. 28 N., R. 3 W., second principal meridian, at lat. 40°51'16" N. and long. 86°48'52" W. Not: Miller Ditch, Clayton Ditch, Wilson Ditch. January 18, 1963.

Big Monon Ditch (162): A deeply dredged channel about 28.3 miles long, heading in Starke County, west of the city of North Judson, Indiana, in sec. 20, T. 32 N., R. 3 W., second principal meridian, at lat. 41°12'46" N. and long. 86°47'36" W., and flowing generally southward through Pulaski County, Indiana, to its confluence at Lake Shafer on the Tippecanoe River in White County, Indiana, in sec. 20, T. 28 N., R. 3 W., second principal meridian, at lat. 40°51'53" N. and long. 86°46'35" W. Not: Monon River, Monon Ditch, Big Monon Creek, Big Metamonong Creek, Burbank Ditch, Harp Ditch, Ketman Ditch. January 18, 1963.

Big Raccoon Creek (193): A stream about 84.5 miles long, heading in Boone County, Indiana, in sec. 7, T. 18 N., R. 1 W., second principal meridian, at lat. 40°00'54" N. and long. 86°34'01" W., and flowing generally southwestward through Montgomery, Putnam, and Parke Counties, Indiana, thence northwestward to its confluence at the Wabash River at the Parke-Vermillion county line, in sec. 11, T. 15 N., R. 9 W., second principal meridian, at lat. 39°45'52" N. and long. 87°22'48" W., and about 2.0 miles south of the town of Montezuma, Indiana. Not: Raccoon Creek, Raccoon Ditch, Sherril Ditch, Sherrill Ditch. March 15, 1963.

Bingen, omit name of (188): A crossroads in Preble Township, Adams County, Indiana, in sec. 1, T. 28 N., R. 13 E., second principal meridian, at lat. 40°54'39" N. and long. 85°00'25" W. (Bingen was the former post office in the community of Williams in sec. 5, T. 28 N., R. 14 E.) March 15, 1963.

Bockoven Ditch (154): A stream about 2.4 miles long in Jay County, Indiana, heading in sec. 5 T. 23 N., R. 14 W., second principal meridian, at lat. 40°28'44" N. and long. 84°58'56" W., and flowing generally northward to its confluence at Karnes Ditch in sec. 30, T. 24 N., R. 14 E., second principal meridian, at lat. 40°30'30" N. and long. 84°58'57" W., and near the community of Antiville, Indiana. Not: Antiville Drain. November 28, 1962.

Bogus Run (163): A stream about 14.0 miles long, heading in Pulaski County, Indiana, in sec. 8, T. 31 N., R. 2 W., second principal meridian, at lat. 41°08'40" N. and long. 86°40'30" W., and flowing generally northward and northwestward to its confluence at Kline Arm in Starke County, Indiana, in sec. 36, T. 33 N., R. 4 W., second principal meridian, at lat. 41°16'16" N. and long. 86°49'01" W., and about 0.5 mile northeast of the town of English Lake, Indiana. Not: Bogus Creek, Bogus Ditch, Hannah Ditch, Shedrow Ditch, Shuttrow Ditch, Locust Ditch, Lucas Ditch. January 18, 1963.

Bowers Creek (94): A stream about 9.0 miles long, heading in Clinton County, Indiana, about 2.5 miles west of the community of Clarks Hill, Tippecanoe County, Indiana, in sec. 30, T. 21 N., R. 2 W., second principal meridian, at lat. 40°14'37" N. and long. 86°40'49" W., and flowing generally southwestward to the junction of Little Potato Creek to form Lye Creek in Montgomery County, Indiana in sec. 19, T. 20 N., R. 3 W., second principal meridian, at lat. 40°10'12" N. and long. 86°47'49" W. Not: Bower Creek, Bowers Branch, Potato Creek, McLaughlin Ditch. July 27, 1962.

Breier Arm (130): A stream about 1.9 miles long in Hancock County, Indiana, heading in sec. 36, T. 16 N., R. 5 E., second principal meridian, at lat. 39°47'17" N. and long. 85°55'03" W., and flowing generally south-southwestward to its confluence at Breier Creek in sec. 12, T. 15 N., R. 5 E., second principal meridian, at lat. 39°46'00" N. and long. 85°55'41" W., and about 1.7 miles east-southeast of the village of Cumberland, Marion County, Indiana. Not: Breier Ditch Arm, Brier Arm, Brier Ditch Arm. July 27, 1962.

Breier Creek (129): A stream about 5.4 miles long, heading in Hancock County, Indiana, in sec. 6, T. 15 N., R. 6 E., second principal meridian, at lat. 39°46'49" N. and long. 86°54'38" W., and flowing generally southwestward to its confluence at Buck Creek in Marion County, Indiana, in sec. 22, T. 15 N., R. 5 E., second principal meridian, at lat. 39°43'50" N. and long. 85°58'18" W. Not: Brier Ditch, Breier Ditch, Brier Creek. July 27, 1962.

Bull Run (164): A stream about 4.0 miles long in Lake County, Indiana, heading in sec. 36, T. 35 N., R. 10 W., second principal meridian, at lat. 41°26'25" N. and long. 87°30'47" W., and flowing generally eastward to the junction with another tributary to form West Creek in sec. 5, T. 34 N., R. 9 W., second principal meridian, at lat. 41°26'01" N. and long. 87°28'22" W., and about 1.2 miles south of the village of St. John, Indiana. Not: Bull Creek, West Creek. January 18, 1963.

Callahan Ditch (226): A stream about 3.7 miles long in Jasper County, Indiana, heading at a point on the line of Ryan Ditch in sec. 21, T. 30 N., R. 5 W., second principal meridian, at lat. 41°02'18" N. and long. 87°00'16" W., and flowing generally westward and northwestward to its confluence at Oliver Ditch in sec. 13, T. 30 N., R. 6 W., second principal meridian, at lat. 41°02'54" N. and long. 87°03'48" W., and about 1.6 miles west of the community of Newland, Indiana. April 19, 1963.

Carmichael Ditch (133): A stream about 1.7 miles long in Delaware County, Indiana, heading in sec. 26, T. 20 N., R. 11 E., second principal meridian, at lat. 40°09'04" N. and long. 85°14'39" W., and flowing generally southwestward to its confluence at the Prairie Creek Reservoir on Prairie Creek in sec. 34, T. 20 N., R. 11 E., second principal meridian, at lat. 40°08'49" N. and long. 85°16'01" W., and about 6.7 miles east-southeast of the city of Muncie, Indiana. Not: Collarbone Creek, Carmicheall Ditch. July 27, 1962.

Cavendish Ditch (214): A stream about 1.7 miles long in Jasper County, Indiana, heading in sec. 18, T. 30 N., R. 5 W., second principal meridian, at lat. 41°03'15" N. and long. 87°01'57" W., and flowing generally southward and eastward to its confluence at Ryan Ditch in sec. 17, T. 30 N., R. 5 W., second principal meridian, at lat. 41°02'49" N. and long. 87°00'38" W., and about 1.2 miles east of the community of Newland, Indiana. April 19, 1963.

Cedar Creek (165): A stream about 12.0 miles long in Lake County, Indiana, heading at the outlet of Cedar Lake in sec. 26, T. 34 N., R. 9 W., second principal meridian, at lat. 41°21'58" N. and long. 87°25'36" W., and flowing generally southward through Lake Dalecarlia to its confluence at Singleton Ditch in sec. 14, T. 32 N., R. 9 W., second principal meridian, at lat. 41°12'59" N. and long. 87°25'13" W. Not: Cedar Creek Ditch. January 18, 1963.

Chestnut Lakes (166): A group of three natural lakes in Porter County, Indiana, in sec. 7, T. 36 N., R. 5 W., and sec. 12, T. 36 N., R. 6 W., second principal meridian, at lat. 41°35'15" N. and long. 87°02'48" W., and about 1.8 miles south-southeast of the town of Chesterton, Indiana. Not: Chesterton Lakes, Wallins Wallow. March 15, 1963.

Chris Salrin Lateral (203): A stream about 0.9 mile long in Jasper County, Indiana, heading in sec. 22, T. 31 N., R. 5 W., second principal meridian, at lat. 41°07'11" N. and long. 86°59'17" W., and flowing southward to its confluence at Ryan Ditch in section 27, T. 31 N., R. 5 W., second principal meridian, at lat. 41°06'25" N. and long. 86°59'17" W. April 19, 1963.

Cobb Ditch (134): A stream about 7.6 miles long in Porter County, Indiana, heading in sec. 10, T. 34 N., R. 6 W., second principal meridian, at lat. 41°25'14" N. and long. 87°05'15" W., and flowing generally southward to its confluence at Sandy Hook Ditch in sec. 14, T. 33 N., R. 6 W., second principal meridian, at lat. 41°18'58" N. and long. 87°04'57" W. Not: Cobbs Ditch, State Ditch, Sandy Hook Ditch, West Branch Sandy Hook Ditch, Smoke Ditch, District Smoke Ditch, Shults Ditch, Wolfe Creek. July 27, 1962.

Corner Creek (135): A stream about 8.1 miles long in Montgomery County, Indiana, heading in sec. 1, T. 17 N., R. 5 W., second principal meridian, at lat. 39°56'20" N. and long. 86°56'02" W., and flowing generally west-northwestward to its confluence at Sugar Creek in sec. 29, T. 18 N., R. 5 W., second principal meridian, at lat. 39°58'12" N. and long. 87°00'29" W. Not: Carner Creek, Caren Creek, Karnes Creek, Carnes Creek, Kern Creek, Grassy Creek, Conner Creek, Cornes Creek, Curnes Creek. July 27, 1962.

Cox No. 1 Ditch (167): A stream about 4.8 miles long, heading in Vigo County, Indiana, in sec. 6, T. 13 N., R. 7 W., second principal meridian, at lat. 39°35'46" N. and long. 87°14'12" W., and flowing generally southwestward and northward to its confluence at Big Raccoon Creek in Parke County, Indiana, in sec. 26, T. 14 N., R. 8 W., second principal meridian, at lat. 39°38'01" N. and long. 87°16'00" W., and about 1.2 miles northeast of the town of Rosedale, Indiana. Not: Cress Run. January 18, 1963.

Crooked Creek (168): A stream about 23.9 miles long in Cass County, Indiana, heading in sec. 29, T. 28 N., R. 2 E., second principal meridian, at lat. 40°50'36" N. and long. 86°19'37" W., and flowing circuitously southwestward to its confluence at the Wabash River in the Cicott Reserve, at lat. 40°43'16" N. and long. 86°30'55" W., and about 8.0 miles west-southwest of the city of Logansport, Indiana. Not: Sheets Ditch, Sheets Main Ditch, Crooked Creek and Sheets Ditch, Crooked Creek and Sheets Main Ditch. January 18, 1963.

Curtis Creek (180): A stream about 13.4 miles long, heading in Newton County, Indiana, in sec. 12, T. 30 N., R. 8 W., second principal meridian, at lat. 41°03'45" N. and long. 87°17'16" W., and flowing generally south-southeastward to its confluence at the Iroquois River in Jasper County, Indiana, in sec. 5, T. 28 N., R. 7 W., second principal meridian, at lat. 40°53'53" N. and long. 87°14'14" W., and about 5.1 miles southwest of the town of Rensselaer, Indiana. Not: Curtiss Creek, Kent Ditch, Lawler Ditch. February 13, 1963.

Cypress Creek (231): A stream about 19.4 miles long in Warrick County, Indiana, heading in sec. 4, T. 5 S., R. 8 W., second principal meridian, at lat. 38°06'46" N. and long. 87°18'28" W., and flowing generally south-southwestward to its confluence at the Ohio River in sec. 12, T. 7 S., R. 9 W., second principal meridian, at lat. 37°55'58" N. and long. 87°22'19" W., and about 2.2 miles east-southeast of the town of Newburgh, Indiana. Not: Cypress Creek Ditch, Cypress Drain, Cyprus Creek, Roth Ditch. April 19, 1963.

Davis Ditch (220): A stream about 2.4 miles long in Jasper County, Indiana, heading at a point in the line of Jungles Ditch, in sec. 32, T. 31 N., R. 6 W., second principal meridian, at lat. 41°05'55" N. and long. 87°07'35" W., and flowing generally east-southeastward to its confluence at Lateral No. 77 in sec. 34, T. 31 N., R. 6 W., second principal meridian, at lat. 41°05'35" N. and long. 87°05'05" W. Not: Davisson Ditch. April 19, 1963.

Davisson Ditch (221): A stream about 1.8 miles long in Jasper County, Indiana, heading in sec. 9, T. 30 N., R. 6 W., second principal meridian, at lat. 41°04'12" N. and long. 87°07'06" W., and flowing generally north-northeastward to its confluence at Davis Ditch in sec. 33, T. 31 N., R. 6 W., second principal meridian, at lat. 41°05'33" N. and long. 87°06'22" W. April 19, 1963.

Deer Creek (233): A stream about 6.4 miles long in Marshall County, Indiana, heading in sec. 14, T. 33 N., R. 3 E., second principal meridian, at lat. 41°18'18" N. and long. 86°08'46" W., and flowing generally southward to its confluence at Outlet Creek in sec. 10, T. 32 N., R. 3 E., second principal meridian, at lat. 41°13'48" N. and long. 86°09'41" W. Not: Deep Creek, Bair Ditch, Bair Lateral, Berkey Ditch, Noah Berkey Ditch. June 21, 1963.

De Gonia Springs (192): A community in Skelton Township, Warrick County, Indiana, in secs. 27 and 28, T. 5 S., R. 7 W., second principal meridian, at lat. 38°03'16" N. and long. 87°11'10" W., and about 4.8 miles east of the town of Boonville, Indiana. Not: Dagonia Spring, Dagonia Springs, DaGonia Springs, Degonia, De Gonia, Degonia Springs, DeGonia Springs, Springs. March 15, 1963.

Dry Branch (137): A stream about 5.8 miles long, heading in Hancock County, Indiana, in sec. 20, T. 17 N., R. 6 E., second principal meridian, at lat. 39°54'13" N. and long. 85°52'49" W., and flowing generally westward to its confluence at Geist Reservoir on Fall Creek in Marion County, Indiana, in sec. 21, T. 17 N., R. 5 E., second principal meridian, at lat. 39°54'08" N. and long. 85°57'52" W., and about 1.8 miles north of the town of Oaklandon, Indiana. Not: McCords Creek. July 27, 1962.

East Branch Twelve Mile Creek (235): A stream about 13.9 miles long, heading in Miami County, Indiana, in sec. 25, T. 29 N., R. 3 E., second principal meridian, at lat. 40°56'06" N. and long. 86°08'44" W., and flowing circuitously south-southwestward to join the West Branch Twelve Mile Creek and form Twelve Mile Creek in sec. 31, T. 28 N., R. 3 E., second principal meridian, at lat. 40°49'50" N. and long. 86°13'49" W., and about 2.2 miles northwest of the community of Hoover, Indiana. Not: Mills Ditch. June 21, 1963.

East Fly Creek (143): A stream about 12.2 miles long in Lagrange County, Indiana, heading in sec. 13, T. 36 N., R. 10 E., second principal meridian, at lat. 41°34'59" N. and long. 85°19'07" W., and flowing circuitously northwestward, through Royer Lake and Fish Lake to its confluence at Fly Creek in sec. 8, T. 37 N., R. 10 E., second principal meridian, at lat. 41°40'52" N. and long. 85°23'49" W., and about 2.9 miles north-northwest of the town of Lagrange, Indiana. Not: East Branch Fly Creek, Little Fly Creek, Case Ditch. July 27, 1962.

Fiat (139): A community in Penn Township, Jay County, Indiana, in secs. 3 and 10, T. 24 N., R. 12 E., second principal meridian, at lat. 40°33'10" N. and long. 85°08'59" W., and about 4.1 miles north of the village of Pennville, Jay County, Indiana. Not: Fiatt, Winona, Woinona. July 27, 1962.

Fly Creek (142): A stream about 15.5 miles long in Lagrange County, Indiana, heading at Case Lake in sec. 18, T. 36 N., R. 11 E., second principal meridian, at lat. 41°34'22" N. and long. 85°17'51" W., and flowing generally northwestward to the city of Lagrange, Indiana, thence northeastward to its confluence at Pigeon River in sec. 32, T. 38 N., R. 10 E., second principal meridian, at lat. 41°42'25" N. and long. 85°23'43" W., and about 0.7 mile northwest of the town of Ontario, Indiana. July 27, 1962.

Folger Ditch (227): A stream about 3.6 miles long in Jasper County, Indiana, heading in sec. 25, T. 30 N., R. 6 W., second principal meridian, at lat. 41°01'38" N. and long. 87°02'46" W., and flowing generally southwestward and northwestward to its confluence at Oliver Ditch in sec. 22, T. 30 N., R. 6 W., second principal meridian, at lat. 41°02'20" N. and long. 87°05'49" W., and about 3.3 miles west-southwest of the community of Newland, Indiana. April 19, 1963.

Gehring Ditch (209): A stream about 1.0 mile long in Jasper County, Indiana, heading in sec. 8, T. 30 N., R. 5 W., second principal meridian, at lat. 41°03'38" N. and long. 87°00'27" W., and flowing generally southward and westward to its confluence at Ryan Ditch in sec. 17, T. 30 N., R. 5 W., second principal meridian, at lat. 41°02'51" N. and long. 87°00'38" W., and about 1.2 miles east of the community of Newland, Indiana. April 19, 1963.

Gehring and Gumz Ditch (213): A bilateral stream about 1.8 miles long in Jasper County, Indiana; the north lateral heading in sec. 9, T. 30 N., R. 5 W., second principal meridian, at lat. 41°02'18" N. and long. 86°59'37" W.; the south lateral heading in sec. 21, T. 30 N., R. 5 W., second principal meridian, at lat. 41°02'18" N. and long. 86°59'19" W.; both laterals flowing to a common point at the Record Lateral on the common line between secs. 15 and 16, T. 30 N., R. 5 W., second principal meridian, at lat. 41°02'52" N. and long. 86°59'19" W., and about 2.3 miles east of the community of Newland, Indiana. April 19, 1963.

Gerke Ditch (131): A stream about 7.8 miles long in Adams County, Indiana, heading at the Adams-Allen county line in sec. 2, T. 28 N., R. 14 E., second principal meridian, at lat. 40°55'12" N. and long. 84°54'23" W., and flowing generally southwestward to its confluence at the St. Marys River in sec. 21, T. 28 N., R. 14 E., second principal meridian, at lat. 40°51'44" N. and long. 84°56'53" W. Not: 17 Mile Creek, Seventeen-Mile Creek, Wilder Creek, Wilder's Creek, Wilaers Creek. July 27, 1962.

Gifford Ditch (218): A stream about 0.8 mile long in Jasper County, Indiana, heading in sec. 6, T. 30 N., R. 5 W., second principal meridian, at lat. 41°04'25" N. and long. 87°01'52" W., and flowing generally southward to its confluence at Oliver Ditch in sec. 7, T. 30 N., R. 5 W., second principal meridian, at lat. 41°03'44" N. and long. 87°01'52" W., and about 1.1 miles north of the community of Newland, Indiana. Not: Old Gifford Ditch. April 19, 1963.

Guild Lateral (207): A stream about 1.4 miles long in Jasper County, Indiana, heading in sec. 32, T. 31 N., R. 5 W., second principal meridian, at lat. 41°05'34" N. and long. 87°00'29" W., and flowing generally southward and westward to its confluence at Ryan Ditch in sec. 5, T. 30 N., R. 5 W., second principal meridian, at lat. 41°04'55" N. and long. 87°01'15" W., and about 1.7 miles east-northeast of the community of Gifford, Indiana. April 19, 1963.

Hershman Arm (205): A stream about 1.2 miles long in Jasper County, Indiana, heading in sec. 20, T. 31 N., R. 5 W., second principal meridian, at lat. 41°07'18" N. and long. 87°00'52" W., and flowing generally westward and southward to its confluence at the Stalbaum and Hershman Lateral in sec. 29, T. 31 N., R. 5 W., second principal meridian, at lat. 41°06'40" N. and long. 87°01'28" W. Not: Hershman Arm to Stalbaum and Hershman Lateral. April 19, 1963.

Hoagland Ditch (177): A stream about 22.8 miles long, heading in Benton County, Indiana, in sec. 16, T. 26 N., R. 6 W., second principal meridian, at lat. 40°41'54" N. and long. 87°06'23" W., and flowing generally northeastward, northward, and then eastward to its confluence at Lake Shafer on the Tippecanoe River in White County, Indiana, in sec. 6, T. 27 N., R. 3 W., second principal meridian, at lat. 40°48'40" N. and long. 86°47'41" W., and about 3.0 miles northwest of the town of Norway, Indiana. Not: Dolick Ditch, Fischer Ditch, Monon Ditch, Little Monon Creek. February 13, 1963.

Iliff Slough Lateral (215): A stream about 3.4 miles long in Jasper County, Indiana, heading in sec. 30, T. 30 N., R. 5 W., second principal meridian, at lat. 41°01'38" N. and long. 87°02'45" W., and flowing generally eastward and southeastward to its confluence at Ryan Ditch in sec. 33, T. 30 N., R. 5 W., second principal meridian, at lat. 41°00'05" N. and long. 86°59'50" W., and about 3.6 miles south-southeast of the community of Newland, Indiana. Not: Ryan Ditch. April 19, 1963.

Indian Creek (179): A stream about 19.2 miles long, heading in Cass County, Indiana, in sec. 12, T. 28 N., R. 1 E., second principal meridian, at lat. 40°52'52" N. and long. 86°22'23" W., and flowing generally westward to its confluence at the Tippecanoe River in Pulaski County, Indiana, in sec. 31, T. 29 N., R. 2 W., second principal meridian, at lat. 40°55'32" N. and long. 86°41'49" W., and about 3.9 miles northeast of the community of Buffalo, White County, Indiana. Not: Indian Creek Ditch, Jones Ditch, W. E. Jones Ditch, W. E. Jones Drain, Gault Ditch, Corder Ditch. February 13, 1963.

Iroquois River (230): A stream about 91 miles long in Indiana and Illinois, about 48.0 miles long in Indiana, heading in Jasper County, Indiana, in sec. 15, T. 29 N., R. 7 W., second principal meridian, at lat. 40°57'45" N. and long. 87°12'34" W., and flowing circuitously clockwise around the city of Rensselaer, Jasper County, Indiana, thence generally west-southwestward through Newton County, Indiana, to the Indiana-Illinois State line, thence generally westward, northwestward, and northward through Iroquois County, Illinois, to its confluence at the Kankakee River, about 4 miles southeast of the city of Kankakee, Kankakee County, Illinois. Not: Swain Ditch, Thompson Ditch, Borntrager Ditch, Burns Ditch, Iroquois Ditch, Burns or Iroquois Ditch, Pickamick River, Pinkamink River, Pickamink River, Pickamink Lateral. April 19, 1963.

Joseph Salrin Arm (201): A stream about 1.8 miles long in Jasper County, Indiana, heading in sec. 16, T. 31 N., R. 5 W., second principal meridian, at lat. 41°07'55" N. and long. 87°00'26" W., and flowing generally southeastward and eastward to its confluence at Zick Lateral in sec. 22, T. 31 N., R. 5 W., second principal meridian, at lat. 41°07'37" N. and long. 86°58'43" W. Not: Joseph Salrin Arm of Zick Lateral, Ryan Ditch. April 19, 1963.

Jungles Ditch (229): A stream about 8.3 miles long in Jasper County, Indiana, heading in sec. 19, T. 31 N., R. 6 W., second principal meridian, at lat. 41°07'32" N. and long. 87°09'04" W., and flowing generally southward to its confluence at Oliver Ditch in sec. 29, T. 30 N., R. 6 W., second principal meridian, at lat. 41°01'28" N. and long. 87°08'15" W., and about 0.8 mile east-southeast of the community of Aix, Indiana. Not: Jungle Ditch, Davis or Jungles Ditch. April 19, 1963.

Karnes Ditch (153): A stream about 2.7 miles long in Jay County, Indiana, heading in sec. 31, T. 24 N., R. 14 E., second principal meridian, at lat. 40°29'22" N. and long. 84°59'23" W., and flowing generally northward to its confluence at Bear Creek in sec. 19, T. 24 N., R. 14 E., second principal meridian, at lat. 40°31'05" N. and long. 84°58'49" W. Not: Mud Creek, Karns Ditch. November 28, 1962.

Kays Lateral (196): A stream about 1.5 miles long in Starke County, Indiana, heading in sec. 33, T. 32 N., R. 4 W., second principal meridian, at lat. 41°10'20" N. and long. 86°52'37" W., and flowing westward to its confluence at Ryan Ditch in sec. 33, T. 32 N., R. 4 W., second principal meridian, at lat. 41°10'20" N. and long. 86°54'20" W., and about 2.0 miles south-southwest of the town of San Pierre, Indiana. April 19, 1963.

Keg Creek (187): A stream about 2.3 miles long in Gibson County, Indiana, heading at the junction of its East and West Forks in sec. 15, T. 2 S., R. 9 W., second principal meridian, at lat. 38°20'44" N. and long. 87°24'11" W., and flowing generally northward to its confluence at the Patoka River in sec. 4, T. 2 S., R. 9 W., second principal meridian, at lat. 38°22'33" N. and long. 87°24'32" W., and about 3.7 miles northeast of the town of Francisco, Indiana. Not: West Fork, West Fork Ditch, West Fork Ditch of Brownlee System. February 13, 1963.

Lateral No. 77 (219): A stream about 8.3 miles long in Jasper County, Indiana, heading in sec. 15, T. 31 N., R. 6 W., second principal meridian, at lat. 47°08'32" N. and long. 87°06'03" W., and flowing generally south-southeastward, eastward, and southward to its confluence at Oliver Ditch in sec. 7, T. 30 N., R. 5 W., second principal meridian, at lat. 41°03'31" N. and long. 87°02'23" W., and about 1.1 miles southeast of the community of Gifford, Indiana. Not: Ditch No. 77, Gifford Ditch (Lateral 77), Davisson Ditch, Lateral No. 1. April 19, 1963.

Lemon Creek (237): A stream about 7.0 miles long in Greene County, Indiana, heading in sec. 21, T. 8 N., R. 6 W., second principal meridian, at lat. 39°07'28" N. and long. 87°05'04" W., and flowing generally east-northeastward to its confluence at the Eel River in sec. 9, T. 8 N., R. 5 W., second principal meridian, at lat. 39°08'24" N. and long. 86°58'26" W., and about 1.8 miles north of the town of Worthington, Indiana. Not: Lemon's Creek, Lemon Creek Ditch, Lemon Ditch, Bundle Ditch. June 21, 1963.

Lincoln Ditch (169): A stream about 8.1 miles long in Pulaski County, Indiana, heading in sec. 2, T. 30 N., R. 3 W., second principal meridian, at lat. 41°04'32" N. and long. 86°44'03" W., and flowing generally southwestward and northwestward to its confluence at Big Monon Ditch in sec. 14, T. 30 N., R. 4 W., second principal meridian, at lat. 41°02'58" N., and long. 86°50'34" W. Not: Meek Ditch, Meeks Ditch, Leach Ditch. January 18, 1963.

Little Potato Creek (150): A stream about 19.4 miles long, heading in Clinton County, Indiana, in sec. 21, T. 21 N., R. 1 W., second principal meridian, at lat. 40°12'56" N. and long. 86°32'06" W., and flowing generally westward and southwestward to the junction of Bowers Creek to form Lye Creek in Montgomery County, in sec. 19, T. 20 N., R. 3 W., second principal meridian, at lat. 40°10'12" N. and long. 86°47'49" W. Not: Potato Creek, Bailey Creek. November 28, 1962.

Lost Lake (170): A lake of approximately 40 acres surface area in Union Township, Marshall County, Indiana, in sec. 28, T. 32 N., R. 1 E., second principal meridian, at lat. 41°11'55" N. and long. 86°25'20" W., about 0.3 mile below the outlet of Lake Maxinkuckee, and about 1.3 miles south of the town of Culver, Indiana. Not: Little Lake, Little Maxinkuckee, Little Maxinkuckee Lake, Little Lake Maxinkuckee, Hawk Lake, Hawks Lake. January 18, 1963.

Luken Lateral (197): A stream about 1.7 miles long, heading in Jasper County, Indiana, in sec. 36, T. 32 N., R. 5 W., second principal meridian, at lat. 41°10'29" N. and long. 86°55'54" W., and flowing generally southward, southeastward, and eastward through Pulaski County, Indiana, to its confluence at Ryan Ditch in Starke County, Indiana, in sec. 5, T. 31 N., R. 4 W., second principal meridian, at lat. 41°09'59" N. and long. 86°54'23" W., and about 2.4 miles south-southwest of the town of San Pierre, Indiana. Not: Luken Ditch. April 19, 1963.

Lye Creek (151): A stream about 6.3 miles long in Montgomery County, Indiana, heading at the junction of Bowers Creek and Little Potato Creek in sec. 20, T. 30 N., R. 3 W., second principal meridian, at lat. 40°10'12" N. and long. 86°47'49" W., and flowing generally south-southwestward to its confluence at Sugar Creek in sec. 12, T. 19 N., R. 4 W., second principal meridian, at lat. 40°06'22" N. and long. 86°49'16" W., and about 2.3 miles west of the village of Darlington, Indiana. November 28, 1962.

McKillip Ditch (178): A stream about 13.7 miles long, heading in Jasper County, Indiana, in sec. 30, T. 28 N., R. 5 W., second principal meridian, at lat. 40°50'31" N. and long. 87°01'35" W., and flowing generally eastward to its confluence at the backwater of Lake Shafer on the Tippecanoe River in White County, Indiana, in sec. 25, T. 28 N., R. 4 W., second principal meridian, at lat. 40°50'46" N. and long. 86°49'05" W., and about 3.4 miles east-southeast of the town of Monon, Indiana. Not: Little Monon Creek, Dobbins Ditch, Bunnel Ditch. February 13, 1963.

Meade Rayburn Arm (212): A stream about 2.0 miles long in Jasper County, Indiana, heading in sec. 11, T. 30 N., R. 5 W., second principal meridian, at lat. 41°04'04" N. and long. 86°57'02" W., and flowing generally southwestward to its confluence at the Record Lateral in sec. 15, T. 30 N., R. 5 W., second principal meridian, at lat. 41°03'04" N. and long. 86°58'40" W., and about 3.0 miles east of the community of Newland, Indiana. Not: Meade Rayburn Arm to Record Lateral, Prevo Ditch. April 19, 1963.

Middle Fork Dry Branch (138): A stream about 3.2 miles long, heading in Hancock County, Indiana, in sec. 24, T. 17 N., R. 5 E., second principal meridian, at lat. 39°54'10" N. and long. 85°57'23" W., and flowing generally west-southwestward to its confluence at Dry Branch in Marion County, Indiana, in sec. 21, T. 17 N., R. 5 E., second principal meridian, at lat. 39°53'46" N. and long. 85°57'52" W., and about 1.5 miles north of the town of Oaklandon, Indiana. Not: Woodbury Creek. July 27, 1962.

Millersport (140): A locality in Madison Township, Dubois County, Indiana, in sec. 14, T. 2 S., R. 6 W., second principal meridian, at lat. 38°20'35" N. and long. 87°03'14" W., and about 2.7 miles east-southeast of the community of Velpen, Pike County, Indiana. Not: Duff, Stapleton. July 27, 1962.

Monachals Fork (132): A stream about 6.1 miles long, heading in Hendricks County, Indiana, in sec. 31, T. 16 N., R. 2 W., second principal meridian, at lat. 39°46'34" N. and long. 86°40'40" W., and flowing generally southwestward to its confluence at Clear Creek in Putnam County, in sec. 27, T. 15 N., R. 3 W., second principal meridian, at lat. 39°43'01" N. and long. 86°42'45" W. Not: Clear Creek, Manachles Creek. July 27, 1962.

Moody Lateral (228): A stream about 1.7 miles long in Jasper County, Indiana, heading in sec. 36, T. 30 N., R. 6 W., second principal meridian, at lat. 41°00'03" N. and long. 87°02'46" W., and flowing generally northwestward and westward to its confluence at Folger Ditch in sec. 25, T. 30 N., R. 6 W., second principal meridian, at lat. 41°01'00" N. and long. 87°03'50" W., and about 2.6 miles southwest of the community of Newland, Indiana. April 19, 1963.

Moots Creek (176): A stream about 13.8 miles long, heading at the junction of Myers and Rayman Ditches in White County, Indiana, in sec. 13, T. 25 N., R. 5 W., second principal meridian, at lat. 40°36'46" N. and long. 86°55'36" W., and flowing generally southeastward to its confluence at the Tippecanoe River in Tippecanoe County, Indiana, in Burnetts Reserve No. 1, T. 27 N., R. 3 W., second principal meridian, at lat. 40°32'16" N. and long. 86°46'56" W., and about 3.5 miles northeast of the town of Battleground, Indiana. Not: Mootz Creek, Motes Creek, Moores Creek, Moore's Creek. February 13, 1963.

New Bethel (171): A community in Franklin Township, Marion County, Indiana, in secs. 31 and 32, T. 15 N., R. 5 E., second principal meridian, at lat. 39°42'16" N. and long. 86°00'35" W., and about 14.2 miles east-southeast of the center of Indianapolis, Indiana. Not: Wanamaker (although Wanamaker Post Office is in New Bethel). January 18, 1963.

Newland Ditch (225): A stream about 1.1 miles long in Jasper County, Indiana, heading in sec. 18, T. 30 N., R. 5 W., second principal meridian, at lat. 41°02'46" N. and long. 87°02'14" W., and flowing generally westward and northwestward to its confluence at Oliver Ditch in sec. 13, T. 30 N., R. 6 W., second principal meridian, at lat. 41°03'08" N. and long. 87°03'18" W., and about 1.2 miles west-northwest of the community of Newland, Indiana. April 19, 1963.

North Fork Dry Branch (136): A stream about 4.9 miles long, heading in Hancock County, Indiana, in sec. 20, T. 17 N., R. 6 E., second principal meridian, at lat. 39°54'36" N. and long. 85°52'41" W., and flowing generally westward to its confluence at Geist Reservoir on Fall Creek in Marion County, Indiana, in sec. 16, T. 17 N., R. 5 E., second principal meridian, at lat. 39°54'48" N. and long. 85°57'27" W., and about 2.5 miles north of the town of Oaklandon, Indiana. Not: Shultz and Shultz Ditch, Germantown Creek. July 27, 1962.

Oliver Ditch (217): A stream about 10.1 miles long in Jasper County, Indiana, heading at a point in the line of Ryan Ditch in sec. 5, T. 30 N., R. 5 W., second principal meridian, at lat. 41°04'55" N. and long. 87°01'16" W., and flowing generally southwestward, westward, and southward to its confluence at the Iroquois River in sec. 6, T. 29 N., R. 6 W., second principal meridian, at lat. 40°59'43" N. and long. 87°08'30" W., and about 3.7 miles north of the town of Rensselaer, Indiana. Not: Gifford Ditch, Gifford Dredge Ditch, Old Gifford Ditch, Guild Lateral. April 19, 1963.

Oswego Lake (146): A lake in Plain Township, Kosciusko County, Indiana, in secs. 11 and 12, T. 33 N., R. 6 E., second principal meridian, at lat. 41°19'35" N. and long. 85°47'10" W., at the outlet of Tippecanoe Lake in the course of the Tippecanoe River, and about 0.4 mile north of the town of Oswego, Indiana. July 27, 1962.

Outlet Creek (232): A stream about 6.9 miles long in Marshall County, Indiana, heading in sec. 31, T. 33 N., R. 3 E., second principal meridian, at lat. 41°15'54" N. and long. 86°13'05" W., and flowing generally southeastward to its confluence at the Tippecanoe River in sec. 24, T. 32 N., R. 3 E., second principal meridian, at lat. 41°12'11" N. and long. 86°08'04" W. Not: Out Let Creek, Deep Creek, Phillips Lateral. June 21, 1963.

Paint Creek (182): A stream about 12.5 miles long, heading in Cass County, Indiana, in sec. 8, T. 25 N., R. 2 E., second principal meridian, at lat. 40°37'25" N. and long. 86°19'21" W., and flowing generally westward to its confluence at Deer Creek in Carroll County, Indiana, in sec. 21, T. 25 N., R. 1 W., second principal meridian, at lat. 40°36'13" N. and long. 86°31'49" W., and about 0.6 mile southeast of the village of Camden, Indiana. Not: Tolen Ditch, Thomas Tolen Ditch, Tolan Ditch. February 13, 1963.

Pigeon Creek (183): A stream about 52 miles long, heading about 1.6 miles southeast of the center of Princeton, Gibson County, Indiana, in sec. 17, T. 2 S., R. 10 W., second principal meridian, at lat. 38°20'20" N. and long. 87°32'44" W., and flowing circuitously southward through Warrick County to its confluence at the Ohio River in Evansville, Vanderburgh County, Indiana, in sec. 25, T. 6 S., R. 11 W., second principal meridian, at lat. 37°58'33" N. and long. 87°35'17" W. Not: Grand Pigeon Creek, Great Pigeon Creek, Big Pigeon Creek, Muddy Creek, Stunkle Ditch, Stunkel Ditch, O. Heim Ditch, Muddy Fork Ditch, Clear Fork Ditch. February 13, 1963.

Pike Creek (174): A stream about 11.9 miles long in White County, Indiana, heading in sec. 36, T. 28 N., R. 2 W., second principal meridian, at lat. 40°50'02" N. and long. 86°35'01" W., and flowing generally west-southwestward to its confluence at the Tippecanoe River in sec. 21, T. 27 N., R. 3 W., second principal meridian, at lat. 40°51'49" N. and long. 86°45'29" W., and about 2.4 miles north of the town of Monticello, Indiana. Not: Mertz Ditch. February 13, 1963.

Randle Lateral (216): A stream about 0.7 mile long in Jasper County, Indiana, heading in sec. 5, T. 29 N., R. 5 W., second principal meridian, at lat. 39°59'15" N. and long. 87°01'19" W., and flowing generally southward to its confluence at Ryan Ditch in sec. 8, T. 29 N., R. 5 W., second principal meridian, at lat. 39°58'40" N. and long. 87°01'14" W., and about 4.7 miles south of the community of Newland, Indiana. April 19, 1963.

Record Lateral (210): A stream about 5.0 miles long in Jasper County, Indiana, heading in sec. 3, T. 30 N., R. 5 W., second principal meridian, at lat. 41°05'00" N. and long. 86°58'30" W., and flowing generally westward, southward, eastward, southward, and westward to its confluence at Ryan Ditch in sec. 17, T. 30 N., R. 5 W., second principal meridian, at lat. 41°02'49" N. and long. 87°00'38" W., and about 1.2 miles east of the community of Newland, Indiana. Not: Ryan Ditch. April 19, 1963.

Rich Grove Lateral (224): A stream about 1.5 miles long in Jasper County, Indiana, heading at a point in the line of Ryan Ditch in sec. 8, T. 30 N., R. 5 W., second principal meridian, at lat. 41°03'24" N. and long. 87°00'47" W., and flowing generally westward to its confluence at Oliver Ditch in sec. 7, T. 30 N., R. 5 W., second principal meridian, at lat. 41°03'27" N. and long. 87°02'32" W., and about 0.9 mile north-northeast of the community of Newland, Indiana. April 19, 1963.

Rider Lake (144): A lake in Sparta Township, Noble County, Indiana, in sec. 32, T. 34 N., R. 8 E., second principal meridian, at lat. 41°21'12" N. and long. 85°37'50" W., in the course of Turkey Creek and immediately south of Duely Lake, and about 0.9 mile southeast of the community of Indian Village, Indiana. Not: Indian Village Lake. July 27, 1962.

Riggins Ditch (141): A stream about 2.4 miles long in Delaware County, Indiana, heading in sec. 34, T. 21 N., R. 10 E., second principal meridian, at lat. 40°13'37" N. and long. 85°22'59" W., and flowing generally west-northwestward to its confluence at Jakes Creek in sec. 29, T. 21 N., R. 10 E., second principal meridian, at lat. 40°14'17" N. and long. 85°24'54" W. Not: Little Jakes Creek, Jakes Creek, Little Kilbuck Creek. July 27, 1962.

Royer Lake (149): A lake of approximately 70 acres surface area in Bloomfield and Johnson Townships, Lagrange County, Indiana, in sec. 2, T. 36 N., R. 10 E., and sec. 35, T. 37 N., R. 10 E., second principal meridian, at lat. 41°36'40" N. and long. 85°20'15" W., and about 4.6 miles southeast of the town of Lagrange, Indiana. Not: Sloan Lake, Sloan or Royer Lake. November 28, 1962.

Rufus Rayburn Arm (211): A stream about 0.8 mile long in Jasper County, Indiana, in sec. 10, T. 30 N., R. 5 W., second principal meridian, heading at lat. 41°04'16" N., and long. 86°58'19" W., and flowing generally southwestward to its confluence at the Record Lateral at lat. 41°03'50" N. and long. 86°58'44" W., and about 3.1 miles east-northeast of the community of Newland, Indiana. Not: Rufus Rayburn Arm to Record Lateral. April 19, 1963.

Ryan Ditch (195): A stream about 26.3 miles long, heading in Starke County, Indiana, in sec. 32, T. 32 N., R. 4 W., second principal meridian, at lat. 41°10'45" N. and long. 86°54'02" W., and flowing generally southward, southwestward, and westward through Pulaski County, Indiana, and into Jasper County, Indiana, to sec. 5, T. 30 N., R. 5 W., second principal meridian, thence generally east-southeastward to sec. 10, T. 29 N., R. 5 W., second principal meridian, thence generally westward and southwestward to its confluence at the Iroquois River in sec. 21, T. 29 N., R. 6 W., second principal meridian, at lat. 40°56'53" N. and long. 87°07'01" W., and about 2.0 miles northeast of the town of Rensselaer, in Jasper County, Indiana. Not: Ryan Ditch No. 104, Oliver Ditch, Pickamick River, Pinkamink River, Pickamink River, Pickamink Lateral, Pickamink Ditch, Guild Lateral. April 19, 1963.

Salisbury Ditch (194): A stream about 5.3 miles long in Newton County, Indiana, heading in sec. 21, T. 30 N., R. 9 W., second principal meridian, at lat. 41°02'32" N. and long. 87°27'10" W., and flowing generally southward to its confluence at Beaver Creek in sec. 16, T. 29 N., R. 9 W., second principal meridian, at lat. 40°58'01" N. and long. 87°27'36" W., and about 1.5 miles north of the town of Morocco, Indiana. Not: Burgess Ditch, Burgess-Salisbury Drain, Burgess-Salisbury Ditch. April 19, 1963.

Sandcut (189): A community in Otter Creek Township, Vigo County, Indiana, in secs. 17 and 20, T. 13 N., R. 8 W., second principal meridian, at lat. 39°33'53" N. and long. 87°19'22" W., and about 8.3 miles northeast of the city of Terre Haute, Indiana. (Sandcut includes the former town of Meltonville.) Not: Sandcute, Meltonville. March 15, 1963.

Sanes Creek (111): A stream about 10.4 miles long, heading in Rush County, Indiana, in sec. 16, T. 13 N., R. 11 E., second principal meridian, at lat. 39°34'18" N. and long. 85°18'11" W., and flowing generally southeastward through Fayette County to its confluence at the West Fork Whitewater River in Franklin County, in sec. 16, T. 12 N., R. 12 E., second principal meridian, at lat. 39°29'19" N. and long. 85°11'31" W., and about 0.7 mile south of Laurel, Indiana. Not: Sain Creek, Sains Creek, Sain's Creek, Saines Creek, Sane Creek, Sein Creek, Seine Creek, Seine's Creek, Zanes Creek, Sandy Creek, Big Sandy Creek. January 18, 1963.

Slough Creek (172): A stream about 14.4 miles long, heading in White County, Indiana, in sec. 12, T. 28 N., R. 5 W., second principal meridian, at lat. 40°53'10" N. and long. 86°56'38" W., and flowing generally westward to its confluence at Carpenter Creek in Jasper County, Indiana, in sec. 3, T. 28 N., R. 7 W., second principal meridian, at lat. 40°53'43" N. and long. 87°12'20" W., and about 3.6 miles southwest of the town of Rensselaer, Indiana. Not: Big Slough Creek, Big Slough, Howe Ditch, Howe and Van Voorst Ditch, Van Voorst Ditch, Denton Ditch. January 18, 1963.

South Fork Patoka River (156): A stream about 16.7 miles long, heading in Warrick County, Indiana, in sec. 30, T. 3 S., R. 7 W., second principal meridian, at lat. 38°13'29" N. and long. 87°13'50" W., and flowing generally northeastward and northwestward to its confluence at the Patoka River in Gibson County, in sec. 31, T. 1 S., R. 8 W., second principal meridian, at lat. 38°23'00" N. and long. 85°20'30" W., and about 3.1 miles north of the town of Oakland City, Indiana. Not: South Patoka, South Fork, South Fork Ditch, Log Creek, Shy Ditch. November 28, 1962.

Splunge Creek (148): A stream about 8.3 miles long, heading in Vigo County, Indiana, in sec. 17, T. 10 N., R. 8 W., second principal meridian, at lat. 39°18'32" N. and long. 87°19'52" W., and flowing generally east-northeastward and southeastward to its confluence at the Eel River in Clay County, Indiana, in sec. 17, T. 10 N., R. 7 W., second principal meridian, at lat. 39°18'07" N. and long. 87°12'30" W., and at a geographic feature known as the Old Hill. Not: Sponge Creek. July 27, 1963.

Spring Lake (147): A town in Sugar Creek Township, Hancock County, Indiana, in sec. 3, T. 15 N., R. 6 E., second principal meridian, at lat. 39°46'37" N. and long. 85°51'13" W., and about 4.8 miles west of the city of Greenfield, Hancock County, Indiana. Not: Spring Lake Park. July 27, 1962.

Stalbaum and Hershman Lateral (204): A stream about 1.9 miles long in Jasper County, Indiana, heading in sec. 29, T. 31 N., R. 5 W., second principal meridian, at lat. 41°06'52" N. and long. 87°00'49" W., and flowing generally southward, southwestward, and southeastward to its confluence at Ryan Ditch in sec. 32, T. 31 N., R. 5 W., second principal meridian, at lat. 41°05'53" N. and long. 87°01'03" W. Not: Stalbaum and Hershman Laterals. April 19, 1963.

Staser (191): A community in Scott Township, Vanderburgh County, Indiana, in sec. 30, T. 4 S., R. 10 W., second principal meridian, at lat. 38°08'52" N. and long. 87°33'56" W., and about 3.9 miles south of the town of Haubstadt, Gibson County, Indiana. Not: Stacer, Stacer Station, Stacers, Stacers P.O., Staeers, Stasers, Staser Station, Steers, Nash Depot. March 15, 1963.

Stroube Ditch (155): A stream about 3.7 miles long in Jay County, Indiana, heading in sec. 3, T. 23 N., R. 14 E., second principal meridian, at lat. 40°28'14" N. and long. 84°57'04" W., and flowing circuitously northward to its confluence at Bear Creek in sec. 28, T. 24 N., R. 14 E., second principal meridian, at lat. 40°30'15" N. and long. 84°56'32" W., and about 2.4 miles southeast of the town of Bryant, Indiana. Not: Green Run. November 28, 1962.

Stump Slough Ditch (199): A stream about 1.2 miles long in Jasper County, Indiana, in sec. 23, T. 31 N., R. 5 W., second principal meridian, heading at lat. 41°07'36" N. and long. 86°56'59" W., and flowing generally southward and westward to its confluence at Ryan Ditch, at lat. 41°07'14" N. and long. 86°57'53" W. April 19, 1963.

Thompson Ditch (173): A stream about 7.5 miles long in Pulaski County, Indiana, heading in sec. 19, T. 31 N., R. 2 W., second principal meridian, at lat. 41°07'21" N. and long. 86°41'08" W., and flowing generally southward and westward to its confluence at Big Monon Ditch in sec. 32, T. 31 N., R. 3 W., second principal meridian, at lat. 41°05'17" N. and long. 86°46'00" W. Not: Bouslog Ditch, Bousley Ditch. January 18, 1963.

Thornhope (186): A community in Van Buren Township, Pulaksi County, Indiana, in secs. 28 and 33, T. 29 N., R. 1 W., second principal meridian, at lat. 40°55'33" N., and long. 86°31'46" W. Oak is the post office at Thornhope. Not: Oak (Thornhope), Oak. February 13, 1963.

Tippecanoe Lake (145): A lake in Tippecanoe and Plain Townships, Kosciusko County, Indiana, joined on the east by James Lake and on the west by Oswego Lake, in the course of the Tippecanoe River, in secs. 1 and 12, T. 33 N., R. 6 E., and secs. 6, 7, 8, 17, and 18, T. 33 N., R. 7 E., second principal meridian, at lat. 41°19'40" N. and long. 85°45'35" W., and about 3.5 miles west of the village of North Webster, Indiana. Not: Lake Tippecanoe, Big Tippecanoe Lake. July 27, 1962.

Twelve Mile Creek (236): A stream about 4.0 miles long in Cass County, Indiana, heading at the junction of its East and West Branches in sec. 31, T. 28 N., R. 3 E., second principal meridian, at lat. 40°49'50" N. and long. 86°13'49" W., and flowing generally southward to its confluence at the Eel River in the Little Charlie Federal Reserve, at lat. 40°47'52" N. and long. 86°13'56" W., and about 1.8 miles west-southwest of the community of Hoover, Indiana. June 21, 1963.

Vanatta Lateral (208): A stream about 3.2 miles long in Jasper County, Indiana, heading in sec. 34, T. 31 N., R. 5 W., second principal meridian, at lat. 41°06'00" N. and long. 86°59'01" W., and flowing generally southward, southwestward, and westward to its confluence at Ryan Ditch in sec. 5, T. 30 N., R. 5 W., second principal meridian, at lat. 41°04'16" N. and long. 87°00'58" W., and about 1.8 miles east of the community of Gifford, Indiana. Not: Ryan Ditch. April 19, 1963.

Vernigor Ditch (223): A stream about 2.0 miles long in Jasper County, Indiana, heading in sec. 34, T. 31 N., R. 6 W., second principal meridian, at lat. 41°06'29" N. and long. 87°05'38" W., and flowing generally eastward to its confluence at Lateral No. 77 in sec. 1, T. 30 N., R. 6 W., second principal meridian, at lat. 41°05'02" N. and long. 87°03'22" W., and about 1.0 mile north of the community of Gifford, Indiana. April 19, 1963.

Warrenton (190): A community in Johnson Township, Gibson County, Indiana, in sec. 16, T. 4 S., R. 10 W., second principal meridian, at lat. 38°10'22" N. and long. 87°31'55" W., and about 3.2 miles southeast of the town of Haubstadt, Indiana. Not: Warrenton P.O., Warrentown, Greeley, Tracewell. March 15, 1963.

Washburn Lateral (202): A stream about 2.2 miles long in Jasper County, Indiana, heading in sec. 5, T. 31 N., R. 5 W., second principal meridian, at lat. 41°05'24" N. and long. 86°57'23" W., and flowing generally northward, westward, northwestward, and southwestward to its confluence at Ryan Ditch in sec. 27, T. 31 N., R. 5 W., second principal meridian, at lat. 41°06'35" N. and long. 86°58'45" W. April 19, 1963.

West Branch Twelve Mile Creek (234): A stream about 10.6 miles long in Cass County, Indiana, heading in sec. 2, T. 28 N., R. 2 E., second principal meridian, at lat. 40°53'56" N. and long. 86°15'43" W., and flowing generally southwestward and southeastward to join the East Branch Twelve Mile Creek and form Twelve Mile Creek in sec. 31, T. 28 N., R. 3 E., second principal meridian, at lat. 40°49'50" N. and long. 86°13'49" W., and about 2.2 miles northwest of the community of Hoover, Indiana. Not: Karen Neff Ditch, Karren Neff Ditch, Twelve Mile Creek. June 21, 1963.

West Fork Pigeon Creek (184): A stream about 7.0 miles long in Gibson County, Indiana, heading in sec. 11, T. 3 S., R. 11 W., second principal meridian, at lat. 38°16'25" N. and long. 87°36'10" W., and flowing circuitously southeastward to its confluence at Pigeon Creek in sec. 22, T. 3 S., R. 10 W., second principal meridian, at lat. 38°14'13" N. and long. 87°31'02" W., and about 3.4 miles east-southeast of the town of Fort Branch, Indiana. Not: Muddy Creek, Muddy Fork, Muddy Fork Pigeon Creek, Toops Drain, Toops Ditch, E. Toops Ditch. February 13, 1963.

William Hershman Lateral (206): A stream about 1.1 miles long in Jasper County, Indiana, heading in sec. 6, T. 30 N., R. 5 W., second principal meridian, at lat. 41°04'56" N. and long. 87°02'10" W., and flowing generally northeastward and southeastward to its confluence at Ryan Ditch in sec. 5, T. 30 N., R. 5 W., second principal meridian, at lat. 41°05'05" N. and long. 87°01'14" W., and about 1.9 miles northeast of the community of Gifford, Indiana. April 19, 1963.

Williams Ditch (175): A stream about 1.7 miles long in White County, Indiana, heading in sec. 4, T. 27 N., R. 3 W., second principal meridian, at lat. 40°49'19" N. and long. 86°45'18" W., and flowing generally northwestward to its confluence at Lake Shafer on the Tippecanoe River in sec. 33, T. 28 N., R. 3 W., second principal meridian, at lat. 40°50'15" N. and long. 86°46'10" W. Not: Cullen Creek. February 13, 1963.

Wolf Creek (152): A stream about 5.8 miles long in Jackson Township, Jay County, Indiana, heading in sec. 28, T. 24 N., R. 13 E., second principal meridian, at lat. 40°30'00" N. and long. 85°03'44" W., and flowing generally northeastward to its confluence at Loblolly Creek at the north line of sec. 11, T. 24 N., R. 13 E., second principal meridian, at lat. 40°33'17" N. and long. 85°00'22" W. Not: Campbell Ditch, Myers and West Ditch, Myer and West Ditch. November 28, 1962.

Wynkoop Ditch (222): A stream about 2.5 miles long in Jasper County, Indiana, heading in sec. 24, T. 31 N., R. 6 W., second principal meridian, at lat. 42°07'06" N. and long. 87°03'11" W., and flowing generally southeastward, southward, westward, and southward to its confluence at Lateral No. 77 in sec. 36, T. 31 N., R. 6 W., second principal meridian, at lat. 42°05'30" N. and long. 87°03'20" W., and about 1.4 miles north of the community of Gifford, Indiana. April 19, 1963.

Zick Ditch (200): A stream about 2.5 miles long in Jasper County, Indiana, heading in sec. 16, T. 31 N., R. 5 W., second principal meridian, at lat. 41°08'16" N. and long. 86°59'58" W., and flowing generally southeastward and southward to its confluence at Ryan Ditch in sec. 27, T. 31 N., R. 5 W., second principal meridian, at lat. 41°06'25" N. and long. 86°59'18" W. Not: Zick Lateral, Ryan Ditch, Ryan-Kraisinger Ditch. April 19, 1963.

Title: FOREST COLEOPTERA OF GHANA, BIOLOGICAL NOTES AND HOST TREES

Author: G.H. THOMPSON, University Demonstrator, Department of Forestry, Oxford University

Series: Oxford Forestry Memoirs, Number 24, 1963

The Book: This work identifies 371 species of beetle associated with one or more of fifty-six different kinds of trees which are found in the high forest of Ghana. A Host Tree Insect List lists beetles under trees they have been found on without notes, while a much fuller Insect Host Tree List is arranged by species of beetles and contains biological notes on a substantial number of the beetles listed. These biological notes deal with the ways that some beetles attack the trees and the ways that others attack their insect prey. Observations on egg laying, types of tunneling, and condition of the wood that seems to encourage tunneling are included in these notes. A final list gives host trees by families and the bibliography contains one book and two articles.

78 pp. ($10\frac{1}{2}$ x $7\frac{1}{4}$) paper

Library price $6.80 pub. July 1963

British Publisher The Clarendon Press

U.S. pub. price $8.00
